

Product Alert

May 24, 2013

Type of Notification: Performance Related Concern

FM Approvals has been made aware of the potential of a performance issue with a diesel engine pump driver of the following description:

Company Identity: Cummins
Name: Cummins Fire Power
Address: 875 Lawrence Drive, De Pere, WI 54115
Contact information: Bob Janquart, Product Support Manager
920-338-5917
www.cumminsfirepower.com

Product Identity: Model CFP9E
Description: Diesel engine fire pump driver
Serial Number Ranges: 46984170 through 46999201
73000277 through 73418774
FM Approval status: Currently FM Approved

Hazard involved: During routine testing of a CFP9E engine, the test model failed to recover to its rated speed. The problem was traced to a pressure relief valve in the fuel rail. There have been no field issues reported to Cummins or FM Approvals, however, Cummins will make appropriate replacement parts available for any location that has a CFP9E driver currently installed.

The Field Campaign Notice released by Cummins Fire Power can be found by following the hyperlink below:
